Dr Neeraj Arora

Assistant Professor

Address for Correspondence:

Dr. Priyanka

Assistant Professor

Department of Veterinary Surgery and Radiology,

College of Veterinary Sciences,

Lala Lajpat Rai University of Veterinary & Animal Sciences.

Hisar (Haryana) – 125004

Mobile: **+91-9050222446**

E-mail:

priyankaduggal0304@luvas.edu.in

Website: **www.luvas.edu.in**

Eligibility:

The applicant must possess **B.V.Sc. & A.H.** degree and working as:

- Field Veterinarian
- Private Practitioner
- Post-graduate scholars (M.V.Sc./ Ph.D.)

Duration: 5 Days (5th – 9th August, 2024)

Last date to apply: 25th July, 2024

Last date to deposit fee: 31st July, 2024

Number of participants: Minimum - 5 (Five),
Maximum - 10 (Ten).

Selection will be based on First come - First serve basis.

Registration Fees: Rs. 7,000/- per participant

How to apply:

- Interested participants should apply by filling the registration form and send to the course co-ordinator through e-mail, QR code or google link (<https://forms.gle/BtBiAZMndc9jqY2j7>) on or before 20th July, 2024. Selected participants will be informed through e-mail for deposition of registration fees.
- Registration fees will be deposited by the selected participants up to **31st July, 2024.**
- Registration Fees once paid will not be refunded.

Travel:

- TA/ DA will be borne by the participants at their own.

TRAINING COURSE

On

'Basics of Veterinary Ophthalmology'

August 05-09, 2024

Organized by

**Department of Veterinary Surgery and Radiology
College of Veterinary Sciences
Lala Lajpat Rai University of Veterinary
and Animal Sciences
Hisar (Haryana) – 125 004**

Course Background

Eye health is crucial for the overall well-being of animals. Proper vision is essential for their survival, behaviour, and quality of life. Veterinary ophthalmology is a specialized field focused on diagnosing and treating eye disorders in animals. This discipline encompasses a wide range of species, including companion animals (dogs, cats), large animals (horses, cattle), exotic animals (birds, reptiles), and wildlife. The goal of veterinary ophthalmology is to preserve or restore vision and alleviate pain caused by ocular diseases.

Veterinary ophthalmologists play a critical role in:

- Identifying and managing congenital and acquired eye diseases
- Performing intricate eye surgeries
- Providing preventive care and education to pet owners and breeders

About the Training

This training program is meticulously designed to equip veterinary professionals with the theoretical knowledge and the development of technical proficiency across a wide range of animal species. Following topics will be tentatively covered in this training:

Basic Anatomy and Physiology of the eye

- Anatomy of the eye across different species
- Functions of various ocular structures

Ophthalmology Examination Techniques

- Use of ophthalmic instruments
- Direct and Indirect Ophthalmoscopy
- Interpretation of diagnostic tests

Diseases and Disorders

- Corneal diseases (ulcers, dystrophies)
- Lens disorders (cataracts, lens luxation)
- Glaucoma
- Retinal diseases
- Uveitis and other inflammatory conditions

Surgical Procedures

- Morgan pocket technique
- Steps of Phacoemulsification
- Conjunctival flap/graft etc.

Case Studies and Problem-Solving

Interactive sessions to discuss real-life cases

Boarding and lodging

Accommodation will be made available on twin sharing basis in University Guest House on payment basis, as per availability. The accommodation charges will be borne by the participants.
