**Memo No. LUVAS/COVS/A-1/2026/.....268-72.....**

**Dated: ...14.01.26.....**

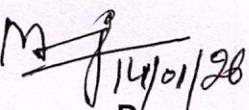

**Subject: Urgent Request for Repair of Roads in College of Veterinary Sciences and Animal Farm Areas**

The roads within the premises of the College of Veterinary Sciences and in the Animal Farm areas of the Departments of LPM and AGB, College of Veterinary Sciences, LUVAS, Hisar, are presently in a very poor condition. The concrete surface has been damaged and removed at several places, resulting in dusty and unsafe conditions.

As the undersigned understands that the College of Veterinary Sciences will continue to function at this campus for a considerable period, it is justified that the internal roads and farm-area roads are maintained in a serviceable condition to ensure smooth functioning and safety.

Therefore, it is requested to kindly take up this matter with the Chief Engineer, CCS HAU, Hisar, or take up it at the level of the DSW-cum-EO, LUVAS, Hisar, for necessary action.

This matter may kindly be treated as urgent.
