Subject: Regarding the notice board on e Governance

It has been observed that many departments are not using the e Governance system notice board for seminar/examination related notices. Instead, there is tendency of circulating seminar notices or any other academic circulars via letter movement system. It is therefore necessary to curtail the use of letter movement system when it is possible to put the circular/ notices on e Governance notice board. This will save lot of time in forwarding the letters to colleagues who can otherwise get the same information directly from e Governance notice board.

Therefore, in future, it must be ensured that the content appropriate for notices should not be circulated via letter movement system. However, the information to committee members may be sent through letter movement system.
