

h-index and i10 index

The Directorate of Research, LUVAS Hisar in collaboration with the Institution Innovation Council, LUVAS Hisar organized a seminar entitled 'h-index and i10 index' at 3: 00 pm on 29. 01. 2024. The purpose of the event was to prime the post graduate students and young faculty members regarding the importance of various academic research indices.

Dr. Shalini Sharma (IPR activity co-ordinator, IIC LUVAS Hisar) was the expert speaker of the event. She thoroughly explained various research parameters including h-index, i-10 index, g-index etc. and their relevance in research acknowledgement. She further stated that one should aspire to get high research scores, which would pave way to get big funding research projects from Government agencies and private sectors. She also underscored that innovative research yields better publications, which would eventually acquire good citations.

The chief guest of the event, Dr. Naresh Jindal (Director of Research, LUVAS Hisar), in his address highlighted the importance of innovation in the changing world. He also emphasized that newly emerging diseases also prompted the researchers to look for innovative solutions to deal with them. He finally encouraged the post-graduate students and young faculty to enlarge the horizon of their innovative thinking to fetch better results which could be easily translated into high cited publications.
