In this regard it is submitted that the student was appeared in the annual examination 2021-22. The practical examination of Elementary Medicine (VLDD-X) was held on 02.12.2022 as per examination schedule. The student could not appear in the practical examination of said subject due to severe fever. He came on the next day in the college and requested the principal to conduct his practical examination. The principal considered his request due to his last chance and conducted his practical examination on 03.12.2022. However, while submitting the practical results by the college to this office the said student was shown absent in Elementary Medicine (VLDD-X).
